## Invitation

Dear Esteemed Scientists,

It is with great pleasure and honor that we invite you to participate in and contribute to the 10th National Inorganic Chemistry Congress, organized by the Department of Chemistry, Faculty of Science at Karabük University, with the support of the Turkish Chemical Society, to be held from June 17-20, 2025.

The aim of our congress is to evaluate the latest scientific advancements in the field of Inorganic Chemistry, to provide a platform for establishing potential collaborations by bringing together researchers from different institutions and countries, and to offer participants opportunities to learn about new analytical techniques, experimental methods, and theoretical approaches. This event will be particularly valuable for young researchers and students, offering them a chance to advance their careers and interact with leading figures in their fields.

The congress will feature a platform where scientists and researchers working on topics such as coordination chemistry, supramolecular compounds, organometallic chemistry, catalysis, reaction mechanisms, energy and photochemistry, bioinorganic chemistry and metalloenzymes, solid-state chemistry, and inorganic-organic materials can present their work and discuss the latest developments.

The congress will be held in-person at the Central Campus of Karabük University. Presentations can be delivered as oral or poster sessions, and the presentation languages will be both Turkish and English.

Our congress venue is located just 5 km from Safranbolu, a UNESCO World Heritage Site. Social activities during the congress will include trips to the historical old bazaar, the Glass Terrace, Horma Canyon, and Eskipazar Hadrianapolis Ancient City.

We believe that your expertise in Inorganic Chemistry will be a significant contribution to the success of this event. We eagerly anticipate your participation and support through your valuable work, and we look forward to welcoming you to Karabük from June 17-20, 2025.

For more information and to register, please visit our website.
